

# MGGA

Minnesota Grape Growers Association

433 West Third Street, Suite 1 • Red Wing, Minnesota 55066

Join the Minnesota Grape Growers Association  
— *the nation's leading cold climate grape growers association for more than thirty years!*

Interest in growing cold hardy grapes and the demand for grape product are both at an all time high. The *Enology and Grape Breeding Program* at the University of Minnesota has produced and released four very popular cold climate wine grape varieties that offer the opportunity for excellence in Midwest vineyards and Midwest wine.

Over the past thirty years, the MGGA has evolved to meet the information and networking needs of our membership. The MGGA hosts its annual *Cold Climate Grape & Wine Conference* in February and expects well over 500 attendees. The conference is just one example of what the MGGA offers to cold climate grape growers.

**Other resources and activities supported by your MGGA dues include:**

- the MGGA website: [www.mngrapes.org](http://www.mngrapes.org)
- the MGGA's quarterly newsletter, *Notes from the North*
- *Growing Grapes in Minnesota*, an MGGA publication covering the fundamentals of growing cold hardy grapes
- a loan library for members with books and videos on grape growing and winemaking
- annual meeting and winter symposium in January
- annual picnic, including education sessions for growers
- the MGGA booth at the Minnesota State Fair offering assistance to current and prospective growers
